NOTE.—The figures for the first five years may, for statistical purposes, be regarded as final; those for the last year—which have been revised to 31st Dec., 1905—will be liable to future correction. It should be stated, however, that there is no finality to the changes which may occur for back years in the Income Tax Registers, but such changes will not materially affect the above results. The Income Tax was imposed by Act 58 Vict. No. 1374, passed on the 29th January, 1895, and Regulations framed thereunder dated the 14th March, 1895, and is levied on all incomes earned after deducting all outgoings and expenses incurred in the production of income, also until 1903 an exemption of £200, except in the case of absentees. In 1903 the exemption was reduced to £100, but was allowed only to resident and absentee taxpayers (excluding companies) with incomes under £500. The rates of tax, which are fixed annually, applied to incomes over £156 for the year 1904-5, and were as follow :—

Of Taxable Amount—	Rate of Tax on Incomes derived from— Personal Exertion.	The Produce of Property.
First £500	3d. in £1	6d. in £1

NOTES.—(1) Occasionally annual allowances are voted in addition to those paid from Special Appropriations, and hence the total number of pensioners is fewer than that of pensions. This happens chiefly in the Railway Department where extra allowances were voted as follow:—112 for £724 in 1899–1900, 119 for £806 in 1900–1, 116 for £795 in 1901–2, 109 for £787 in 1902–3, 104 for £776 in 1903–4, and 97 for £671 in 1904–5.

(2) Police and Pilot pensions are not included, being payable out of special funds. The endowment payable out of the General Revenue to the Police Superannuation Fund, under Act 54 Vict. No. 1127, is £2,000 per annum; but in addition to this the following amounts in aid have been paid out of Votes in the years named:—£15,000 in 1899–1900, £13,000 in 1900–01, £20,000 in 1901–2, £45,000 in 1902–3, £40,000 in 1903–4, and £42,000 in 1904–5. No Government contribution is made to the Port Phillip Pilot Sick and Superannuation Fund. For number and amount of Police and Pilot pensions, see page 43 *post*.

* Including the superannuation allowance of a late Clerk of the Parliaments, pensions under the Commissioners of Audit, Officers of Parliament, and Public Service Board Acts.——† Including pensions under Victorian Railways Commissioners Act.——‡ Exclusive of payments to Police Superannuation Fund referred to in note 2 *supra*.——§ Subject to sanction of Parliament.

NOTE.—Pensions and gratuities to the police are payable under the Police Regulation Act (54 Vict. No. 1127) out of a fund called the Police Superannuation Fund. This fund is maintained by an endowment from the consolidated revenue, by a moiety of fines inflicted by the courts of petty sessions, by a deduction not exceeding 2½ per cent. from the pay of the force, and, when the foregoing sources are insufficient, by further grants in aid from the consolidated revenue. In 1904–5, the ordinary receipts were as follow:—Government endowment, £2,000; fines, £3,577; deductions from pay (at 2½ per cent.), £5,492; Government subsidy voted to supplement endowment, £42,000; total, £53,069. The balance at the credit of the fund on the 1st July, 1904, was £5,579; and on the 30th June, 1905, £7,312. During the past eighteen years it has been necessary to vote £381,891 (exclusive of endowment) in aid of the fund, or an average of £21,216 per annum.

NOTES.—(1) Occasionally annual allowances are voted in addition to those paid from Special Appropriations, and hence the total number of pensioners is fewer than that of pensions. This happens chiefly in the Railway Department where extra allowances were voted as follow:—112 for £724 in 1899–1900, 119 for £806 in 1900–1, 116 for £795 in 1901–2, 109 for £787 in 1902–3, 104 for £776 in 1903–4, and 97 for £671 in 1904–5.

(2) Police and Pilot pensions are not included, being payable out of special funds. The endowment payable out of the General Revenue to the Police Superannuation Fund, under Act 54 Vict. No. 1127, is £2,000 per annum; but in addition to this the following amounts in aid have been paid out of Votes in the years named:—£15,000 in 1899–1900, £13,000 in 1900–01, £20,000 in 1901–2, £45,000 in 1902–3, £40,000 in 1903–4, and £42,000 in 1904–5. No Government contribution is made to the Port Phillip Pilot Sick and Superannuation Fund. For number and amount of Police and Pilot pensions, see page 43 *post*.

* Including the superannuation allowance of a late Clerk of the Parliaments, pensions under the Commissioners of Audit, Officers of Parliament, and Public Service Board Acts.——† Including pensions under Victorian Railways Commissioners Act.——‡ Exclusive of payments to Police Superannuation Fund referred to in note 2 *supra*.——§ Subject to sanction of Parliament.

* In addition to the new cases as stated above, 438 old cases were dealt with, many of which were re-investigated.

NOTE.—There are now records of over 13,000 cases in the archives of the Society. This Society does not aim at distributing charity, but ascertains by investigation whether applicants for relief are deserving of assistance, and thereby assures charitably disposed people that their contributions are being properly disposed of. It maintains a woodyard as a labour test, so that the means of earning food and shelter shall be open to men able and willing to work. It strives to induce co-operation between the charities, the recognition of the necessity of organization in the work of charitable institutions, and the compilation of records of value to the sociologist and philanthropist. It also strives to create a centre of intelligence bearing on charitable work generally.

NOTE.—The figures in this table, which have been furnished each year by the Registrar-General, do not express the full amounts secured and released in each year; the reason being that the amounts are frequently not set forth in the registered documents, especially in regard to live stock, wool, and crops released, and in the case of which, although the mortgages or liens may have been paid off, the mortgagors seldom take the trouble to have the releases registered, as the securities relating to wool and crops lapse after the expiration of twelve months from date of the same.

* The following mortgages are not included:—Building Society mortgages which are registered as absolute transfers and regarded as such by the Titles Office; and Equitable mortgages to banks and individuals by deposit of title-deeds chiefly for temporary advances, of which there is no public record. The Releases are also deficient, inasmuch as a mortgage is very often discharged in other ways, *e.g.*, the mortgagee sells under his power of sale on default, or the mortgagor transfers the property to the mortgagee in satisfaction, or the mortgagee forecloses.

† Of these numbers 2,955 in 1903, 1,286 in 1904, and 1,095 in 1905 were liens to the Board of Land and Works under the *Seed Advances Act* 1903.

* The financial years of Melbourne and Geelong end on the 31st December and on the 31st August respectively; that of all other municipalities on the 30th September.——† In addition, the following rates were levied in the following municipalities:—Sanitary rates in Ararat of 3d. in the £1, in Bendigo, Castlemaine, Eaglehawk and Echuca of 4d. in the £1, and in Brunswick, Ballarat, Buninyong, Essendon, Malvern and Wangaratta, of 7s., 12s., 12s., 10s., 14s. and 18s. per pan respectively; Lighting rates in Geelong and Melbourne, of 3d. and 4d. in the £1 respectively; and Water rates in Sale and Wangaratta, of 1s. 6d. and 1s. in the £1 respectively. It must not, however, be inferred that similar rates were not levied in other municipalities, as many of them furnished no particulars respecting the rates levied in addition to the general rates.——‡ The area comprised in the Statistical District of Greater Melbourne embraces a radius of 10 miles from the General Post Office. For particulars as to the Shires which are either wholly or partly comprised within that radius, see foot-notes ‡ and § on page 9, *post*.——§ Camberwell and Boroondarra was constituted a borough on the 28th April, 1905.——‖ Coburg was constituted a borough on the 28th January, 1905.——¶ North Melbourne Town, and Flemington and Kensington borough, were amalgamated with Melbourne city as Hopetoun Ward on the 30th October, 1905.

NOTE.—Pastoral and grazing area leases are granted for any term of years expiring not later than 29th December, 1909, and 29th December, 1920, respectively; whilst grazing licences are only of a temporary character (renewable annually), and are only granted for waste lands of the Crown till required under the principal sections of the Act. The Mallee leases, as the name indicates, are confined to the Mallee country, in the North-Western portion of the State, which was formerly dealt with under a special Act—the Mallee Pastoral Leases Act, the clauses of which were subsequently embodied in the Land Act 1890. The lessees of grazing areas have the privilege of selecting (*i.e.*, purchasing under the deferred payment system on certain conditions) an area not exceeding 200 acres first class, 320 acres second class, 640 acres third class, or 1,280 acres fourth class according to the classification of the land out of their lease for agricultural or grazing purposes; and lessees of Mallee allotments have a like privilege of selecting out of their lease 640 acres first class, 1,000 acres second class, 1,280 acres third class, or 1,600 acres fourth class according to classification of the land.

* There is no record of the produce for the three years prior to 1839.——† In 1863–4, 1864–5, and 1878–9 the yield of wheat was much affected by "rust."——‡ The tobacco crop in 1875–6, 1879–80, 1890–91, 1892–3, 1898–9, 1900–1, and 1901–2 failed in most parts of the State. The figures for 1905–6 are not available.——§ See "Minor Crops," page 55 *post*.

NOTE.—In the years 1904 and 1905 the mode of classing a holding as principally Agricultural, Dairying, or Pastoral was determined on the kind of occupation the persons were engaged in on the farm. This method, however, has been found to be unsatisfactory, and in order to obtain a better idea of the principal industry carried on, each holding, and not the hands employed, has been classed by the collector in 1906 according to the information he obtained from the occupier. The figures for the two years referred to have been proportioned to compare with those for the year 1906 on the basis of the returns for that year.

* The number of hands ordinarily employed on any holding includes the occupier or manager, and those members of his family who actually work on it; but persons absent from their farms for the greater portion of the year following other occupations, as well as temporary hands—engaged harvesting, &c.—are not included, neither are domestic servants and cooks.

NOTE.—In the years 1904 and 1905 the mode of classing a holding as principally Agricultural, Dairying, or Pastoral, was determined on the kind of occupation the persons were engaged in on the farm. This method, however, has been found to be unsatisfactory, and in order to obtain a better idea of the principal industry carried on, each holding, and not the hands employed, has been classed by the collector in 1906 according to the information he obtained from the occupier. The figures for the two years referred to have been proportioned to compare with those for the year 1906 on the basis of the returns for that year.

* As only a part of the potato crop, viz., 6,670 acres, had been dug when the statistics were collected, an estimate has been made of the remainder of the yield, based on averages deduced from actual information received in response to cards, from the principal growers in each county. The average of the 6,670 acres dug prior to the general collection of the statistics was 2·69 tons per acre; and that of 11,709 acres, returned by principal growers after such collection, was 2·56 tons per acre, giving a general average for the whole season of 2·58 tons per acre. Hence the estimate of the total produce is based on the average yield of 18,379 acres—or, nearly one-half of the whole area.

† Not ascertained. The quantity on hand at the time of the collector's visits in 1905 was 385,108 tons. ‡ Of this total, the estimated quantity of grapes used for making wine was 265,606 cwt., for making raisins, sultanas, and currants 172,826 cwt.; and for table consumption and export, 60,158 cwt. § 6,455 cwt. of undressed flaxen straw grown in 1905-6 was reported to be awaiting treatment.

* For statistical purposes the municipalities within each district have been arranged as nearly as possible in geographical order. Municipalities that overlap the boundaries of districts have been considered in those districts wherein the principal portions were situated.

† In 1905–6, wheat was grown on 18,362 holdings, compared with 18,000 in 1904–5.

‡ This refers to land over which imported grass, clover, &c., has spread without cultivation; scrub land on which grass has been sown after burning, without ploughing, has been included.

§ The number of hands ordinarily employed on any holding includes the occupier or manager, and those members of his family who actually work on it; but persons absent from their farms for the greater portion of the year following other occupations, as well as temporary hands—engaged harvesting, &c.—are not included, neither are domestic servants and cooks.

SUMMARY BY MUNICIPALITIES.—(I.)—AREA.

TOTAL AREA in Cultivation, also the Number of acres under each Description of Crop, in each Municipality and in the whole State during the Year ended 1st March, 1906.

† As only a part of the potato crop, viz., 6,670 acres had been dug when the statistics were collected, an estimate has been made of the remainder of the yield, based on averages deduced from actual information received in response to cards from the principal growers. The average of the 6,670 acres dug prior to the general collection of the statistics was 2·69 tons per acre; and that of 11,709 acres, returned by principal growers after such collection, was 2·56 tons per acre, giving a general average for the whole season of 2·58 tons per acre. Hence the estimate of the total produce is based on the average yield of 18,379 acres—or, nearly one-half of the whole area.

NOTE.—The items in this Table do not represent the whole area under the respective crops grown, but only of such as were taken cognizance of by the collectors. The minor crops are often raised in gardens, in which case the various descriptions would not be distinguished. They may be also grown upon allotments of less than one acre in extent, and these the collectors are not called upon to visit. The Table must, therefore, be looked upon as indicating the nature of certain crops grown in Victoria rather than the full extent to which those crops are cultivated.

* These figures are made up of the total quantity exported and used for manufactures, less the quantity imported. The wool referred to is, of course, not all of the same quality, some being greasy and some washed or scoured. In Victoria the average weight of a greasy fleece is estimated by experts at 5¼ lbs. for merino, and 6 lbs. for cross-bred and long wool; but the fleece of the former sometimes weighs as much as 9½ lbs., and of the latter 9 lbs.

MANUFACTORIES, 1905.

THE Classification of Industries and the Definition of a Factory, agreed to at the Conference of Statisticians held at Hobart, Tasmania, in January, 1902, have been adopted in these tables. The following is the definition of a Factory:—"All establishments employing, on the average, four hands or upwards, also those with less than four hands, where machinery is worked by power other than manual, making or repairing for the trade (wholesale or retail), or for export."

Where two or more industries are carried on by one proprietor in one building, each industry is, where possible, treated as a separate establishment.

NOTE.—Where the number of Factories are braced the information has been combined in order to conceal the contents of individual schedules. The figures in parentheses indicate engines worked in conjunction with those of a different description.

* The figures in this column apply to purchased land only. One hundred and ninety-two establishments (including fifteen creameries and sixty cyanide works) were carried on upon Crown lands; in these cases no valuation of the land has been given.

† Creameries are not counted as separate establishments, but are regarded merely as branches of butter factories. The number of hands employed was 272 males.

‡ Factory workers, working at their own homes.

‖ Including one Pintsch gas-works.

* Of the extent opened to 30th June, 1905, 47·88 miles (including 16·07 miles dismantled) had been closed to traffic prior to that date.

† Actual cost of construction, exclusive of expenses of floating loans, &c. Of the capital expended to 30th June, 1905, £3,872,327 was derived from the general revenue, and the balance (£37,387,060) from loans. The latter liability is represented by debentures and stock outstanding to the nominal amount of £38,627,398, on which the annual interest payable is £1,429,214, or at the average rate of 3·7 per cent. The nominal amount of loans, however, was reduced by £1,240,338—the cost of flotation together with the *net* deficiency below par at time of flotation. It has been computed that, whilst the nominal rate of interest on loans outstanding on 30th June, 1905, was 3·7 per cent., the real interest on the net proceeds available for railway construction was 3·82 per cent.

‡ Exclusive of the Dookie and Katamatite tramway—16·96 miles—taken over by the Department in 1892, payment, however, not being made until 1903.
